

# Abstract Mini Art Quilt

## One Day Workshop

Over the course of one day, Karen will lead you thru a series of **sewing exercises** to develop stitched components that will be assembled into a mini 8" x 8" abstract art quilt. With live demonstrations and discussions on art principles, we work together to make something truly unique, made by you!

**This workshop is designed to be FUN.**

I supply most of the materials, (framing extra) taking the stress out of shopping for supplies. Most participants leave with finished work– ready to hang at home. No previous art experience necessary but a working sewing machine is required.

**Invite me to your group or guild.**

**Class size 6-12. Teaching fee and supply list available upon request.**
